Contents

Volume 23, No. 1, February 2001

Review

1 **The pathological consequences of anaemia**
D.S. Silverberg, A. Iaina, D. Wexler and M. Blum

Red Cells

7 **Flow-cytometric analysis of erythrocytes and reticulocytes in congenital dyserythropoietic anaemia type II (CDA II): value in differential diagnosis with hereditary spherocytosis**
P. Danise, G. Amendola, B. Nobili, S. Perrotta, E. Miraglia del Giudice, S.M.R. Matarese, A. Iolascon and C. Brugnara

15 **High serum folates and the simplification of red cell folate analysis**
N. Philpott, B.P. Kelleher, O.P. Smith and S.D. O'Broin

21 **The feasibility of estimating the erythrocyte sedimentation rate within a few minutes by using a simple slide test**
R. Rotstein, R. Fusman, S. Berliner, D. Levartovsky, O. Rogowsky, S. Cohen, E. Shabtai, I. Shapira, D. Avitzour, N. Arber and D. Zeltser

27 **Patients with pulmonary and cardiac disease show an elevated proportion of immature reticulocytes**
R.G. Kendall, I. Mellors, J. Hardy and B. M^{c}Ardle

White Cells

33 **The analysis of eosinophil & lymphocyte phenotype following single dose of high-dose methyl-prednisolone in two siblings with marked hypereosinophilia**
D. Uçkan, G. Hiçsönmez, B. Tunç, M. Çetín, I. Tezcan and M. Tuncer

39 **Quinolone resistance in neutropenic patients: the effect of prescribing policy in the UK and Pakistan**
Y. Zaidi, M. Hastings, J. Murray, R. Hassan, M. Kurshid and P. Mahendra

Blood Transfusion

43 **Low level leucocyte counting: a critical variable in the validation of leucodepleted blood transfusion components as highlighted by an external quality assessment study**
D. Barnett, K. Goodfellow, J. Ginnever, V. Granger, L. Whitby and J.T. Reilly

Case Reports

53 **Haemoglobin Q-Thailand and hereditary spherocytosis in a Chinese family**
K.F.S. Leung, W.Y. Au, A.Y.Y. Chan, L.C. Chan, J.S. Waye, D.H.K. Chui and S.K. Ma

57 **Otological manifestations of acute leukaemia: report of two cases and review of literature**
E. Andrès, J.-E. Kurtz, F. Maloisel and P. Dufour

61 **Prothrombin time inhibition detected with recombinant but not with conventional thromboplastins in two patients with high-titre IgM and moderate-titre IgA anticardiolipin antibodies**
R. Munro, N. Dorward, M.S. Lewis and A. Beddall

65 **Platelet apheresis for digital gangrene due to thrombocytosis in chronic myeloid leukaemia**
N. Win and D.C. Mitchell

Correspondence

67 **Metastatic transitional cell carcinoma or nonsecretory multiple myeloma?**
K. Shimizu and K. Imaida

69 **Purpuric rash following treatment with 2-chlorodeoxyadenosine**
A. Hendrick

Volume 23, No. 2, April 2001

Editorial

69 **Plus ça change...**
S. Bentley

Review

71 **Erythropoietin**
R.G. Kendall

Red Cells

81 **A standardized flow cytometric method for screening paroxysmal nocturnal haemoglobinuria (PNH) measuring CD55 and CD59 expression on erythrocytes and granulocytes**
U. Oelschlaegel, I. Besson, C. Arnoulet, D. Sainty, R. Nowak, R. Naumann, Y. Bux and G. Ehninger

91 **Use of a new Hemocue system for measuring haemoglobin at low concentrations**
L.D. Morris, A. Pont and S.M. Lewis

97 **Automated reticulocyte counting using the Sysmex RAM-1**
L. Peng, H. Yang, H. Jiang, J. Su and Z. Peng

103 **Impairment of erythrocyte viscoelasticity is correlated with levels of glycosylated haemoglobin in diabetic patients**
A. Symeonidi, G. Athanassio, A. Psiroyanni, V. Kyriazopoulo, K. Kapatais-Zoumbo, Y. Missirli and N. Zoumbo

White Cells

111 **Patients with non-immune chronic idiopathic neutropenia syndrome have increased splenic volume on ultrasonography**
H.A. Papadaki, N.Z. Charoulakis, D.G. Eliopoulos, M. Psyllaki and G.D. Eliopoulos

119 **Timing of the appearance of multipotential and committed haemopoietic progenitors in peripheral blood after mobilization in patients with lymphoma**
M.D. Hepburn, K. Nagesh, A.D. Heppleston, P.G. Cachia and M.J. Pippard

125 **The effects of prior induction therapy with melphalan on subsequent peripheral blood progenitor cell transplantation for myeloma**
M.A. Kazmi, G. Ahsan and S.A. Schey

Thrombosis and Haemostasis

131 **The PFA-100™ system for the assessment of platelet function in normotensive and hypertensive pregnancies**
M. Marietta, I. Castelli, F. Piccinini, I. Neri, M. Bertesi, F. Facchinetti and G. Torelli

Case Reports

135 **Successful salvage of RAEB/AML relapsing early post allograft with FLAG-Ida conditioned mini-allograft: a report of two cases**
C.H. Hui, P. Bardy, T. Hughes, N. Horvath and L.B. To

139 **Concomitant angioimmunoblastic T-cell lymphoma and low grade B-cell lymphoproliferative disorder**
C. Christopoulos, A. Tassidou, S. Golfinopoulou, G. Anastasiadis, S. Manetas and D. Anagnostou

Volume 23, No. 3, June 2001

Review

139 Molecular abnormalities in b-cell chronic lymphocytic leukaemia
C. Fegan

Technical Notes

149 Flow cytometric method for simultaneous assay of foetal haemoglobin containing red cells, reticulocytes and foetal haemoglobin containing reticulocytes
Y. Mundee, N.C. Bigelow, B.H. Davis and J.B. Porter

155 Comparison of blood counts in venous, fingertip and arterial blood and their measurement variation
Z.-W. Yang, S.-H. Yang, L. Chen, J. Qu, J. Zhu and Z. Tang

Red Cells

161 Homocysteine and methylmalonic acid as indicators of folate and vitamin B_{12} deficiency in pregnancy
M.F. McMullin, P.B. Young, K.E.M. Bailie, G.A. Savage, T.R.J. Lappin and R. White

167 Quantification of red blood cell fragmentation by automated haematology analyzer XE-2100
M. Jiang, K. Saigo, S. Imoto, Y. Kosaka, H. Matsumoto and K. Fujimoto

White Cells

173 Immunophenotypic and cytogenetic changes in acute leukaemia at relapse
M. Hur, Y.H. Chang, D.S. Lee, M.H. Park and H.I. Cho

Coagulation

181 Platelet count and parameters determined by the Bayer ADIVA™ 120 in reference subjects and patients
A. Giacomini, P. Legovini, G. Gessoni, F. Antico, S. Valverde, M. M. Salvadego and F. Manoni

187 Low risk of central venous thrombosis with nontunnelled central venous catheters
P.T. Murphy and N. O'Connor

189 Reliability of delayed prothrombin time INR determinations in a central laboratory using off-site blood sampling
P. Froom, D. Abramova, M. Bar-El and M. Barak

Case Reports

193 EDTA-induced pseudo-neutropenia resolved with kanamycin
J. Hoffmann

197 An unusual late relapse
K.M. Bowles, R. Tooze and R.E. Marcus

201 Combined factor VIII and IX deficiency in a family
S. Shetty, K. Ghosh, S. Parekh and D. Mohanty

Correspondence

205 Factors influencing the frequency of attendance at a warfarin dosing clinic
A.D. Blann and D. Bareford

Volume 23, No. 4, August 2001

Review

209 The molecular biology of von Willebrand disease
S. Keeney and A.M. Cumming

Laboratory Automation

231 Determination of peripheral blood stem cells by the Sysmex SE-9500
L. Peng, J. Yang, H. Yang, Z. Peng, C. Xu and T. Liu

237 Laboratory evaluation of the Sysmex SE-9500 automated haematology analyser
L. Peng, X. Gao, H. Jiang, Z. Peng and J. Su

White Cells

243 **Effect of ozone on neutrophil function *in vitro***
M. Margalit, E. Attias, D. Attias, D. Elstein, A. Zimran and Y. Matzner

Case Reports

249 **Spherocytosis preceding the development of myelodysplasia**
A. Aleem and J. A. Murray

253 **Inappropriate antidiuretic hormone secretion, abdominal pain and disseminated varicella-zoster virus infection: an unusual and fatal triad in a patient 13 months post Rituximab and autologous stem cell transplantation**
L.M. McIlwaine, E.J. Fitzsimons and R.L. Soutar

255 **Hyperdiploid karyotype in a Childhood MDS patient**
H. Acar, Ü. Çalişkan, M. Kaynak, M. Selman Yildirim and D. A. Largaespada

259 **Translocation t(4;6)(q21;q27) in a case of primary thrombocythaemia in transformation**
I. Krsnik, T. Ferro, J. García Suárez, Y. Vázquez Mazariego and P. Cabello

261 **Warfarin-induced skin necrosis associated with Factor V Leiden and protein S deficiency**
T. Ng and M.L. Tillyer

British Society for Haematology

265 **British Society for Haematology Slide Session, Annual Scientific Meeting, Bournemouth, 2000**

Volume 23, No. 5, October 2001

Review

271 **A systematic approach to the assessment of erythropoiesis**
H.M. Waters and L.H. Seal

Red Cells

283 **Foetal haemoglobin in homozygous sickle cell disease: a study of patients with low HBF levels.**
A. Donaldson, P. Thomas, B.E. Serjeant and G.R. Serjeant

289 **Serum erythropoietin and its relation with soluble transferrin receptor in patients with different types of anaemia in a locally defined reference population**
M.E. Roque, M. J. Sandoval and M.C. Aggio

Morphology

295 **Minor dysplastic changes are frequently observed in the bone marrow aspirate in elderly patients without haematologcal disease**
F. Girodon, B. Favre, P.M. Carli, N. Nash, N. Desbiolles, E. Tatou and M. Maynadié

Haemostasis and Thrombosis

299 **The outcome of ambulatory DVT management using a multidisciplinary approach**
P. Rose, D. Bell, E.S. Green, A. Davenport, C. Fegan, H. Grech, D. O'Shaughnessy and J. Voke

305 **Glycoprotein V-specific platelet-associated antibodies in thrombocytopenic patients**
L. Joutsi-Korhonen, K. Javela, P. Hormila and R. Kekomäki

311 **Evaluation of a new immunoturbidimetric test (Liatest antithrombin III) for determination of antithrombin antigen**
J. Antovic, J. Söderström, B. Karlman and M. Blombäck

Transfusion Medicine

315 **Prevalence of antibodies against hepatitis C virus among blood donors in Lebanon, 1997–2000**
N. Irani-Hakime, H. Tamim, H. Samaha and W.Y. Almawi

Case Reports

319 **Haemoglobin H disease due to (–SEA) α-globin gene deletion and α2-codon 30 (ΔGAG) mutation: a family study**
S.K. Ma, A.Y.Y. Chan, E.K.W. Chiu and L.C. Chan

323 **MRSA pyomyositis complicating sickle cell anaemia**
C. Millar, T. Page, P.J. Paterson and C.P.F. Taylor

Correspondence

327 Fast-track referral system for patients with haematological malignancy
G.A. Follows, J.A. Child and G.M. Smith

Meetings Abstracts

329 Advancing Laboratory Practice in Haematology VI 12–15 September 2001, Jersey, Channel Islands

Volume 23, No. 6, December 2001

Laboratory Automation

355 Comparison of the reticulocyte mode of the Abx Pentra 120 Retic, Coulter® General-S™, Sysmex® SE 9500, Abbott CD 4000 and Bayer Advia® 120 haematology analysers in a simultaneous evaluation
J. Van den Bossche, K. Devreese, R. Malfait, M. Van de Vyvere and P. De Schouwer

Red Cells

361 Respiratory changes in human red cells
G. Aliberti, M. Proietta, I. Pulignano, C. Di Giovanni, L. Tritapepe and G. Vercillo

365 High serum cobalamin levels in the clinical setting – clinical associations and holo-transcobalamin changes
R. Carmel, H. Vasireddy, I. Aurangzeb and K. George

373 Molecular analysis of ß-thalassaemia patients in a high incidence area of southern Italy
L. Rigoli, A. Meo, M.R. Miceli, K. Alessio, R.A. Caruso, M.A. La Rosa, D. C. Salpietro, M. Ricca and I. Barberi

379 Evaluation of a new screening test for sickle cell haemoglobin
J. Balasubramaniam, L. Phelan and B. J. Bain

White Cells

385 Detection of hairy cell leukaemia in blood and bone marrow using multidimensional flow cytometry with CD45-PECy5 and SS gating
L. Tytherleigh, M. Taparia and M. F. Leahy

Transfusion and Transplantation

391 Survey of the use of whole blood in current blood transfusion practice
S. MacLennan and M. F. Murphy

397 Placing the newborn on the maternal abdomen increases the volume of umbilical cord blood collected
C. Pafumi, G. Zizza, A. Russo, M. Farina, G. Pernicone, S. Bandiera, P. Giardina, L. Mangiafico, R. Mancari, I. Maggi, A. E. Calogero and A. Cianci

401 Analysis of chimerism during the early period after allogeneic peripheral stem cell transplantation
B. Gleissner, I. W. Blau, A. Sindram, R. Reinhardt, W. Knauf and E. Thiel

Case Reports

407 Haemoglobin Pierre–Benite – a high affinity variant associated with relative polycythaemia
M. E. J. Beard, H. C. Potter, R. L. Spearing and S. O. Brennan

411 Increased incidence of venous thrombosis in patients with shortened activated partial thromboplastin times and low ratios for activated protein C resistance
M. R. Aboud and D. D. F. Ma

Book Review
